

# Modelling Times

Issue 3  
Spring 2014

## Welcome

Welcome to the third issue of 'Modelling Times', an occasional publication designed to keep our customers up to date with new products and other developments. For more information on any of our products, please visit our website or call us to discuss your requirements in more detail.

## URO Goes Metallic!

Newclay Products has launched metallic-effect URO bars in gold, silver and bronze varieties.

[As far as we know], Newclay's heat setting modelling material, URO, is the only polymer clay manufactured in the UK. URO is gaining popularity and respect in the polymer clay community as (we are told) it is easier to use and better value than its more well-known rivals.

URO is manufactured in 27 colours including fluorescent and the new metallic-effect colours. It is supplied as very generous 65g bars and, with a competitive wholesale prices it offers wholesalers and retailers better margins compared with other polymer clays.

## Calling Corporate Event Organisers

Have you considered model-making as an integral part of your event's activities? Newplast in particular is an ideal medium for inspiring creativity, whether your event is a team-building exercise, a promotion for marketing your products and services to potential customers or a competition for existing clients, brokers, distributors, etc. Newclay Products can manufacture Newplast in corporate colours and a very wide range of sizes and shapes designed to meet your specific needs perfectly. Multi-coloured pieces of Newplast, like the Bright bar above, are a speciality: we can also make up flat-packs and sets containing the colours needed to make specific characters or objects. Please contact us to discuss your requirements - past clients include events arranged for Aviva and Google - you will be in good company.

# Newclay Products Acquires mohdoh®

Newclay Products is delighted to announce acquisition of the award-winning mohdoh® range of products. Using aromatherapy, colour therapy and play therapy, the nine products in the range are designed to help improve health and wellbeing.

**Breathe** provides comfort from coughs and colds

**Calm** relaxes body and mind

**Headeez** is used for tense, nervous headache

**Quit** assists with quitting smoking

**Sleep** aids restful sleep

**Slim** supports a weight loss programme

**Think** stimulates and improves concentration

**Travel** relieves travel anxiety and nausea

**Unwind** gently calms and relieves worry

The children's range of six products is EN71 compliant and safe for use by children from age 3. All the products are non-toxic. MohDoh has not been tested on animals. The essential oils used are all Ecocert certified and supplied by aromatherapy expert Penny Price.

## Did You Know?

**Aardman Animations are bringing back Morph!** Models of this iconic character from the history of stop-motion animation are made from our very own Newplast - the material of choice for the most famous animators in the world. We expect Morph to reach our screens in the summer and we can't wait to see our product in action - again.
